

December 16, 2025: Letter to Governor Abbott

Good morning,

I am writing to remind your office, again, that Donald Trump's administration is continuing to engage my home in an ongoing illegal spying operation that is attempting to forever hold onto my attention as if I am obligated to care about his ongoing criminal enterprise.

The general gist of his illegal psychological warfare operation is that he has a team of people spying on the work product that I produce on my computer and then an additional team of people on the ground near my home - waiting in a 'Trump Train' of cars and trucks to drive loudly past my house as a means of inserting his viewpoints and 'driving home' certain points of relationship into my mind on a regularly recurring basis.

The overall entirety of the process is to constantly present my home with the ongoing impression that we are being unmercifully spied upon at all times by his team of criminals and that we are being threatened to be further harmed if we do not somehow acquiesce to his illegal criminal operations.

As I conduct my work today, his messages are stongly correlated to the following definition: 'reminiscent: awakening memories of something else; suggestive; to recall past experiences, events, etc.; a mental impression retained or revived.'

The Donald Trump / Republican Party Presidency of 2024 - Present has been engaging in a psychological warfare operation against my home to force my mind to constantly 'reminisce' on the fact that Donald Trump is attempting to become (and for the large part has successfully achieved the result of becoming) 'Big Brother' from the dystopian novels that we read in high school.

Truly, Donald Trump ended up being worse than the Democrat Party ever warned us about. Donald is a felonious wannable gangster that has completely ruined the political party that slowly embraced him, and he is attempting to tear down the country that regrettably facilitated his formation.

Donald Trump is a giant pimple on the face of America. Our country will forever be negatively affected by the ongoing criminal conspiracy that resulted from his time as President.

Sincerely,

Chris Noel Carlin

Thank You for Contacting the Governor's Office
